Compensation for Summer Teaching & Research Grants

Some faculty have still not been paid for Summer Session teaching or a research grant. Each becomes a special case. Each has to be dealt with one-by-one. Administrative neglect is the usual reason for the non-payment to faculty. Paperwork simply is not completed and submitted in a timely fashion. Often it appears the Administration does not seem to care in the least. This is unfortunate. These Summer Session non-payment cases have been very time consuming and frustrating for our faculty and the UT-AAUP.

If you still have not been paid for teaching or a research grant in the Summer Session, please email the Union at: staff.utaaup@gmail.com and put Don Wedding or Cyrus Hagigat in the email subject line.
